

Augmented Reality Inspection & Audit Remote Hands Support

Save time, money, travel and stop loss

- Capture real world spaces as digital twins
- Document hot spots spatially using Augmented Reality
- Compare “now” and “then” states run realtime
- Stream live to remote auditors and inspectors

Perfect for:

site inspections
& audits **problem mitigation**
remote subject matter
contamination expert support
& loss prevention

makeSEA Inspection

- No travel: remote visit by on-site proxy
- Geo-spatially located hot-spot documentation and annotation
- Auditor/Inspector or SME can be there as if in person, remotely
- Realtime workflow allows for faster mitigation and support

Average on-site inspecting cost:
less than \$250* per location, per visit

vs.

Typical Inspection

- Multiple visits required to inspect and verify: **\$800-1500/visit**
- Hot-spots located manually: necessitates hours of on-site searching
- Auditor must be on location
- Asynchronous workflow: back and forth can take hours or days

Average on-site inspecting cost:
\$2500* per location, per visit

*Assumes a minimum of two site inspections per audit, minimum of 10 inspections per year; estimates include a hardware cost amortized over 24 mos.
